**3. WORKSHOP TOPICS**

**A. REVIEW OF PROPOSED CHANGES TO ZONING ORDINANCES**

**CONTINGENTIAL USE PERMITS VS. USE BY RIGHT:**

At the February 8<sup>th</sup> Workshop, the Council asked for a comparison of CUPs and use by right. The Town Planner gave the following information.

**Advantages to CUPs:**

Increased control over various aspects of the land use.

Ability to place time limits on some uses that may prove to be incompatible with adjacent uses.

Ability to grant waivers in situations where compliance with zoning ordinance standards is not appropriate.

**Disadvantages to CUPS:**

CUPs take a long time to process to completion.

Every CUP is unique, making them more difficult for the Town to administer.

Some questions about existing CUPs may take extensive research for staff to answer.

Some uses that require CUP approval do not warrant the level of review and scrutiny that is involved. Some uses do not warrant the condition of a time limit.

**Advantages to Use by Right:**

Site plan approval process is usually shorter than CUP process, a fact usually appreciated by applicants. Lack of extensive conditions makes approval easier to administer. Site Plan review can ensure compliance with Zoning Ordinance requirements.

**Disadvantages to Use by Right:**

Not as much control over the development and use as with a CUP.

Section 8 - The definition of “campground” was amended to include occupancy by park model travel trailers.

P&Z Commissioner Townsend joined the Joint Workshop.

There was discussion about the park models in the campground as the definition of campground had “overnight” in it. The consensus of the group was to preserve the ability for work campers or RV’s to be in the campground but not create a park model ghetto and the campground return to traditional uses as housing became more accessible. A newer definition will need to be created in the future as it is unknown when the lack of housing will no longer be an issue. This will be reviewed again.

Section 11 - Note: Red Bold indicates discussion took place and all voted on permitted uses. All others were suggested by the Town Planner and approved by the Council and P&Z Commissioners.
